Inward List Requirements

- [ ] Create two inward lists:
  - [ ] **Govt Inward List:** *As per Agency GP.*
  - [ ] **Mill Inward List:** *As per Actual Bags Received*.
- [ ] Display a box on top showing

"As per Agency GP"

		Govt Inward list					Total Bags		
S.No.	Date	Agency GP	Truck No.	Mandi	Party Name	Moisture	A class	B class	Mill Net Weight

- [ ] Here mill net weight will be calculated as = (total Bags * 0.382) and alternately = (total Bags * 0.381)
- [ ] All data is fetched from Paddy Inward.

"As per Mill Inward List"

			Mill	Inward	List					Mill Bags		Shortage Bags		Total Bags					
S.No.	Date	RST No.	In time	Out Time	Mill GP	Agency GP	Truck No.	Mandi	Party Name	A class	B class	A class	B class	A class	B class	Moisture	Required Net Weight	Mill Net Weight	Surplus Plus / Minus

- [ ] All data is fetched from Paddy Inward.
- [ ] This will be mill wise reports.
- [ ] Require supervisors to submit the both Agency wise and Mill wise inward list reports in the evening using fingerprint authentication.
  - [ ] Show a notification pop-up to supervisor for ‘Confirming that the manual entries

completed matches the digital entries of the day'.
    - [ ] Generate a cumulative list in descending order of GP, The actual sequence by which the trucks have been unloaded in the mill, displaying total bags at the end.
- [ ] Add dynamic box indicators showing how many Gate Passes (GPs) are active.
- [ ] Format date range filters for Mill-wise inward lists:
    - [ ] Print date-wise reports.
    - [ ] Ensure each date starts on a new page (do not run as a continuous list).The same report which is submitted in the evening.

Mandi & Artia Wise Details

- [ ] Add Mandi-wise and Artia-wise detail sections below the inward list (display as artia-wise cluster data).
- [ ] Create two sub-sections under Mandi and Artia:
    - [ ] **Govt. Mandi and Artia List**

Artia Name		Govt Mandi and Artia list				Total Bags		
S.No.	Date	Agency GP	Truck No.	Party Name	Moisture	A class	B class	Mill Net Weight

    - [ ] **The Data will be Artia wise.**
    - [ ] All data is fetched from paddy inward.

    - [ ] **Mill Mandi and Artia List**

Artia Name			Mill Mandi and Artia list				Mill Bags		Shortage Bags		Total Bags					
S.No.	Date	RST No.	Mill GP	Agency GP	Truck No.	Party Name	A class	B class	A class	B class	A class	B class	Moisture	Required Net Weight	Mill Net Weight	Surplus Plus / Minus

- [ ] All data is fetched from paddy inward.

- [ ] Configure Mandi Selection behavior:
    - [ ] Show all details in a consolidated Artia entry list From Latest to Oldest, After Finishing one artia then the other.
    - [ ] Print full Mandi pages including all Artias on print command.
- [ ] Configure Artia Selection behavior:
    - [ ] Show data strictly related to the selected Artia from Latest to Oldest data of that season.

Reporting & Dashboard Features

- [ ] Auto-send a daily Paddy Summary report to the mill when the evening report is submitted.
    - [ ] Make visible under:*Daily Inward Summary of Reports Section of Procurement* .
    - [ ] Make the Daily shortage report summary in Reports section of Procurement, with Artia-wise shortage report section.
- [ ] Update Mandi Names automatically:
    - [ ] If no paddy lifting occurs at a Mandi, show balance as zero (0) in Today's section.
- [ ] Display key metrics in front of Mandi Name:

Date											
Mill Name	Goyal Agro			Mill Name	Beas Agro			Mill Name	Rajoa Agro		
Mandi	Opening Balance	Today Arrival	Total	Mandi	Opening Balance	Today Arrival	Total	Mandi	Opening Balance	Today Arrival	Total
M1				M1				M1			
M2				M2				M2			
M3				M3				M3			
Total	Total Of opening Balance	Total in Today Arrival	Total in Bags	Total	Total Of opening Balance	Total in Today Arrival	Total in Bags	Total	Total Of opening Balance	Total in Today Arrival	Total in Bags

- [ ] Auto update the mandi name mill wise.
- [ ] No one need to submit report it is auto generated and fetches data by itself.
- [ ] All data is in terms of bags.
- [ ] Pick up the closing balance of total paddy lifting of that mandi as the opening balance of today (whose gp have been completed).
- [ ] **Today Arrival** section shows the today lifting off from that mandi (whose g[p have been completed).
- [ ] **Total** shows the Opening balance and Today balance sum of that respective mandi.
- [ ] Add a dashboard section displaying summary details across all mills, including dates and printable options.
