System Requirements & Updates Checklist

- [ ] **Rename:** Change "Paddy Purchase & Quality" to "Boli Record".
- [ ] **Access Control:** Do not grant Export/Download file access to the Supervisor role.
- [ ] **Prevent Duplication:** Ensure double-clicking the Submit button saves only 1 file.
- [ ] **Entry Visibility:**
  - Ensure every entry remains visible without hiding inside an extra box.
  - If 12 Bolis are recorded for an Artia, display all 12 entries clearly.
  - Make cluster wise Artia data.
- [ ] **Filter Section Sequence:**
  - Set filter order: **Artia (Supplier) Name** (first) , **Mandi**, **From Date To Date**.
  - Make each filter active so selecting an Artia Name displays details starting from its first entry of the season.
- [ ] **Mandi Selection Behavior:**
  - Display Artia-wise details in order.
  - Sort entries FIFO-wise (e.g., show all entries for Mahesh Artia from first to last, then move to Suresh Artia).
- [ ] **Page Visibility Control:** Add option to adjust/increase data visibility per page to **[10, 50, 100]**.
- [ ] Increase the data visibility area.Reduce the module and sub-module tab size or hide.
- [ ] **Print/Export option:**
  - If Admin gives print/export data command in Mandi view Filter then all Artias data will be printed thus not limited to 1-100 page view.
  - In Date Range section, display data matching the selected Artia filter.
- [ ] **Date Range Filtering:**
  - Selecting a specific Artia Name along with a Date Range shows only that Artia's details.
  - Selecting Artia 'A' displays all entries of Artia ‘A’ (From - To Date).
  - Selecting Artia 'B' displays entries from the selected date.
- [ ] **Purchase Section Cleanup:** Rename the "New Purchase Section" to "Add Estimate Purchase".
- [ ] **Update Frequency Limit:** Restrict Artia Boli record updates to no more than 2 times in one day.
- [ ] **Supervisor Dropdown:** Introduce a "Supervisor Name" dropdown so the supervisor can select their name (limited to respective supervisor checklist), (also submit form with same supervisor fingerprint).
- [ ] **Chronological Boli Numbers:**
  - Auto-generate a chronological series by name for each **Boli No.** whenever added in the Add Purchase Form(fomat where estimate purchase record is updated).
  - Assign a new Boli New No. to each Boli irrespective of Artia or Mandi (series will be mill-wise).
  - Ensure the series is visible in the Boli Record table/register (e.g.,Boli Record layout/ Paddy Purchase and Quality Record register).

General & Authentication Rules

- [ ] Require the supervisor's fingerprint who filled out the Estimate Purchase form when updating it.

"Add Final Boli" Section (Below New Purchase Section)

- [ ] Add a new section titled **"Add Final Boli"** below the **New Purchase** section.

- [ ] Implement a **Boli No.** dropdown menu.
- [ ] Auto-fetch and display **Supervisor Name**, **Artia Name**, and **Mandi, Estimate Purchase Record** upon selecting any Boli No.

.
.
.

Add Final Boli Form

Boli No……..(Dropdown)
Artia Name……(Auto-fetch)
Mandi Name…….(Auto-fetch)
Supervisor…….(Drop-Down)

Artia Bill Checked And
Matched of this Boli……..(Yes / No)

M/C	Estimate Bags	Rate	Final Bags

☐ **Submit with Fingerprint**

.
.
.

- [ ] Include an **"Artia Bill Checked and Matched of this Boli"** field (Yes/No toggle).
- [ ] Include form/table fields: **M/C** (Auto-fetch), **Estimate Bags**, **Rate**, and **Final Bags**.
- [ ] **Moisture, Estimate bags, Rate** are fetched from the Estimate Purchase Form.
- [ ] **Final Bags** data is entered manually.
- [ ] Add a **"Submit with Fingerprint"** action button.

Form Validation & Access Logic

- [ ] Enable the **Final Bags** input field and **Submit** button ONLY when *"Artia Bill Checked and Matched of this Boli"* is set to **Yes**.
- [ ] Lock/disable the **Final Bags** input field and **Submit** button when *"Artia Bill Checked and Matched of this Boli"* is set to **No**.

New Purchase Section Rules

- [ ] Default to showing **4 Boli options**.
- [ ] If Boli count is less than 4, allow purchase creation without requiring deletion of empty Boli options.
- [ ] If some boli has been canceled then the supervisor can write ‘0’ zero.
- [ ] This cancel boli will not be shown in Paddy Inward record in receiving Boli bags.
- [ ] The supervisor can cancel boli max 3 times, Then onwards the message will be send to

further canceling boli.

Data entry Validation Controls in Final bili Form

- [ ] **Moisture Section:** Limit input to maximum 2 whole digits or decimals up to 2 places.
- [ ] **Bags Section:** Restrict input to a maximum of 3 digits (Max value: 999 Bags).
- [ ] **Bags & Rate Sections:** Block decimal entries (e.g., 250.5 or 1990.90 are strictly invalid).

Table Formatting & Backend Calculations

- [ ] This Boli records are of mill wise record

(Ref. Table 01)

					Boli Record								
A	B	C	D	E	F	G	H	I	J	K	L	M	
Party Name	**Date**	**Boli No.**	**M/C**	**Estimated bags**	**Final Bags**	**Rate**	**Payment**	**Final Hisab Amount**	**Received Bags**	**Balance Bags**	**Complete Soda**	**Note**	**Edit option**

- [ ] Perform Payment (section H) calculations in the backend using the following logic:
  - Difference = Govt Rate - Boli Rate
  - Payment = Difference * (Final Bags * 0.375)
  - Every Time the payment is drive from Final bags (section F).
- [ ] **Final Hisab Amount** (section I)Shows the compounding figure of **Payment (**Section H).
- All editable by admin.
- The supervisor can edit the entry of the current day and cannot edit the back date.

Section J: Complete Soda in Table One

- [ ] **View-Only Interface:** Ensure the "Section L: Complete Soda" tab/section functions strictly as a view-only display.
- [ ] **No Bulk Completion Logic:** Ensure there is no functionality or trigger to mark an entire "Boli Soda" as completed, neither in the Boli Record nor within the Paddy Inward form.
- [ ] **Paddy Inward Record Integration:** Add a tick mark / checkbox option in the Paddy Inward record linked directly to individual Boli entries.
- [ ] **Individual Boli Status Sync:** Allow the supervisor to tick/check off a specific Boli under a Boli No. in the Paddy Inward record as soon as that individual Boli is completed.
- [ ] When the boli is marked completed,the balance bags can not be less than or more than 5% of the Final Bags (Section F).
- [ ] **Data Flow:** Ensure the completion state selected by the supervisor in the Paddy

Inward record dynamically reflects in the view-only "Section L: Complete Soda" table 01.

System Alerts

- [ ] Send alert to **Admin** if **Final Bags** deviates by more than or less than **15%** from **Estimated Bags**.

Section J: Received Bags (Table 01)

- [ ] **Source Data Linking:** Map the **Received Bags** field directly to the **Paddy Inward List**, filtering only for specific Boli entries that have been marked/checked off.
- [ ] **Cumulative Calculation:** Calculate **Received Bags** as a dynamic cumulative sum of all Paddy Bags received against that specific Boli across multiple Paddy Inward Gate Passes (GPs).
- [ ] **Continuous Tracking:** Keep summing incoming bags across multiple GPs until the specific Boli status is set to **Completed**.

Section K: Balance Bags & Tolerance Validation

- [ ] **Difference Calculation:** Compute **Balance Bags** using the formula:
  Balance Bags = Final Bags (Section F) - Received Bags (Section J)
- [ ] **Real-Time Display:** Display the resulting difference dynamically in Section K.
- [ ] Supervisor can mark a specific boli complete from the paddy inward list with a verification notification to him test he is completing the boli.
- [ ] **5% Tolerance Rule Check:** Upon marking a soda as **Completed**, evaluate if the **Balance Bags** exceed the threshold:
  Tolerance Limit = 0.05 * Final Bags
- [ ] **Admin Intimation/Alert:** Trigger an automatic alert/intimation to the **Admin** if:
  Balance bags are more than or less than the 5% of Final bags.
